CENTURION LEISURE *Aquadream*

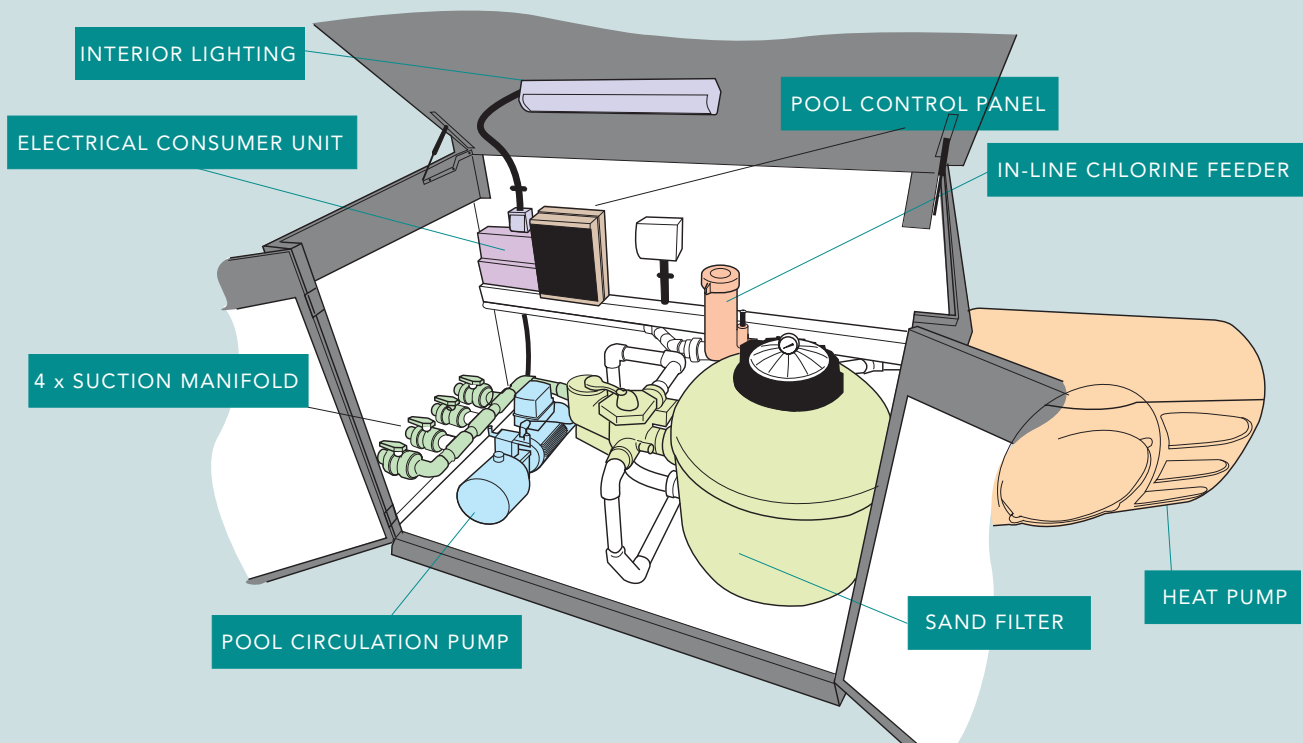

ONE PIECE POOL PLANT ROOMS

A complete pool plant room set in its own self contained unit and constructed, equipped and installed by our own Centurion Leisure pool engineers for the perfect fit for your pool.

This innovative pool side solution is unique to Centurion Leisure. Our one-piece pool plant rooms are designed and built in-house ready to be transported to site and connected quickly, easily and effectively. Which means you can rest assured you will have the perfect pool plant room for your perfect pool.

The advantages of a one-piece pool plant room are obvious, less time on site trying to fit all the pool plant into an existing space (and all the problems that can arise with doing that). The pool room can also be located for optimum efficiency and its smart outward appearance completely hides all the electrics, pumps and filters from view.

This all-new product from Centurion Leisure is the perfect answer to many pool-side applications both new and existing. Contact us for our competitive pricing guide.

The simple and stylish solution to your new pool plant room. Constructed, equipped and installed by Centurion Leisure.
