

EARTH SPAS

Energy efficient and eco-friendly hot tubs for all the family to enjoy.

D E S I G N | C O N S T R U C T I O N | I N N O V A T I O N

From your neck to your toes, feel all the aches and pains drift away. Enjoy a stress-free world you'll want to return to, again and again.

Find the Earth Spa designed for you.
Feel the difference. Experience something new.

 earth spas

Designed for the World

Inspired by Great Natural Landmarks

Created With Feeling

It's ergonomic design, in its ultimate form. Every curve, contour, and angle is defined from our intimate understanding of what you, our customers, want to feel every time you sit in one of our remarkable spas.

Ergonomic Design

Designed with expertise and passion for improving the world we live in. Our hot tubs provide an invigorating, revitalising experience and offer therapeutic benefits for the whole body.

Unparalleled Quality

All spas are manufactured and assembled with meticulous precision. The best materials and components are sourced from world-leading suppliers, whose standards of excellence, both technologically and ethically, are respected industry-wide.

From Mount Erebus in the Antarctic to Uluru in Australia... At Earth Spas, we take our inspiration from the natural wonders and landmarks around our beautiful world. Whether you're relaxing in Ha Long Bay or unwinding in Kouri, let Earth Spas Advanced Flow Hydrotherapy jets soothe and ease away any stress and strains.

"The Earth Spas range was designed with a vision, to offer a healthy, fulfilling experience that enriches people's lives, but just as important to us, is that every effort and consideration is given to supporting the environment, through material choices and efficiency in manufacturing, and providing energy saving solutions that dramatically cut usage and costs. Earth Spas is a range of hot tubs unlike any other".

- **Darren Waters**, Earth Spas Founder

Energy Efficiency Means

Efficiency in heating, cooling and saving money

Committed to improving the wellbeing of people and the health of our planet, Earth Spas is proud to be at the forefront of energy efficient hot tub design and manufacturing. The range has been conceived through a vision of being both ergonomically and environmentally friendly. So, when you choose Earth Spas, the world benefits too.

To optimise energy efficiency, all Earth Spas come with reflective triple layered foam insulation packed all around the sides and base of the spa. The cabinet is also lightweight and interlocking, aiding in stopping energy being lost whilst maximising performance and sustainability.

All Earth Spas hot tubs are EcoSmart73 ready, so you can upgrade and save up to 73% on running costs. It also helps to save the environment too. The ASHP is an intelligent energy solution requiring remarkably little energy, just 0.9kW, in order to produce 5kW, which is enough to heat and cool all year round.

Wellbeing for Planet Earth too

Eco-Friendly Solution

The latest air source heat pump uses the most environmentally friendly R32 refrigerant, reducing the amount of power used in the smartest way. Compared to a standard electrical fitting, this system allows you to save up to 73% in energy costs.

Smart Controls

With 6 different modes that not only heat but also cool your spa, you too can relax in perfect water temperatures, no matter the weather. The smart modes also make sure your spa is working in the most intelligent way, optimising your savings.

Easy To Install

EcoSmart73 is a fully integrated system and a plug-and-play solution. Being more eco-friendly has never been easier. There's no need for additional power circuits. Everything is simple to control, right from your control panel.

These pumps are specifically targeted for retrofit hot tubs and swim spas and are available in 5kW, 7kW or 9kW models as "Standard" or "Plus".

NEXUS

All Earth Spas are also compatible with alternative VIAN Power heaters.

KOURI

The Kouri is perfect when you are looking for something a little more discreet. The **ultra-compact double lounge** layout makes facing and talking to one another simple; or get cosy sat side by side over a glass of wine.

This means, from the moment you step in, the experience will be absorbing and deeply satisfying. Whether it's listening to the trickle of the 3-way Silent Laminar Water Feature, enjoying the soft blast of bubbles on your neck muscles, or being captivated by the stunning colours of the Spectra Lights.

Uncompromising Quality and Excellence

Performance

Durability

Reliability

Earth Spas are built to exceed expectation. With quality parts, the spas use only the best renowned brands for its main components. Add in reflective foam insulation and enhanced features that come at no additional cost, Earth Spas gives you an unforgettable experience, at the highest level.

All Earth Spas shells are produced using Rapid Form™ technology. This environmentally friendly shell solution decreases manufacturing times, greatly reducing energy usage and the impact on our environment. It is chemical, stain, UV, and weather-resistant too. The acrylic surface finish stays bright and true to color, even after many years of use.

Earth Spas are not only renowned for their exceptional reliability, but we also take pride in growing a hand-picked network of reliable retailers. This combination of top-tier products and a dependable retail network guarantees a seamless and satisfying experience from selection to installation.

Extensive Warranty to Keep you Relaxed

SPA STRUCTURE & SHELL SURFACE WARRANTY

10-years structural warranty:

The manufacturer warrants the stainless steel structure of the spa against defects in workmanship or materials for a period of ten years from date of delivery subject to the limitations and conditions expressed in this warranty.

5-years warranty on the acrylic shell structure:

The shell will maintain its structural integrity and configuration and will be free of any water loss due to a defect in the spa shell.

5-years warranty on the shell surface of the spa:

The manufacturer provides a five-year warranty against blistering, cracking and delamination.

SPA PLUMBING & COMPONENT WARRANTY

3-years warranty on spa control box & display module:

The manufacturer warrants the display and the spa control box against defects in the materials and workmanship or any defect for three years. This is with the exception of fuses, bulbs and gaskets which are deemed as perishable and replaceable items.

3-years warranty on spa electrical heater:

The manufacturer warrants the heater against defects in materials and workmanship for a period of three years from date of delivery. This warranty is limited to the supply of replacement parts. This warranty does not cover damage to heaters caused by an incorrect water balance resulting in the heater being subjected to abrasive/acidic water.

2-years warranty on spa pumps:

The manufacturer warrants the spa water pumps against defects in materials and workmanship for a period of two years from date of delivery. Sudden and consistent water loss must be reported to the seller as soon as possible. Damage to the pump motor caused by a pump leaking for an extended period without notifying the seller will not be covered under this warranty.

2-years internal plumbing warranty:

The manufacturer warrants the plumbing, piping and plumbing joints against defects in materials and workmanship for a period of two years from the date of delivery.

1-year warranty on other electrical items:

The manufacturer warrants the factory installed Bluetooth music module, speakers, amplifier and sub-woofer, spa ozone module, the LED light assemblies, which consists of all lights within the spa, including the main light and lighting of any water feature, to be free from defects in materials and workmanship for one year.

SPA FURNISHINGS & PLASTICS WARRANTY

2-years warranty on spa jet internals:

The manufacturer warrants jet internals to be free of manufacturing defects for a period of two years from date of delivery. This warranty excludes bearings damaged by grit, sand and improper water chemistry causing corrosion of the part and is limited to the supply of replacement parts after the faulty part has been returned to the manufacturer for warranty inspection.

1-year warranty on plastic control parts:

The manufacturer warrants the plastic control parts such as diverters and air controllers against defects in materials and workmanship for a period of one year from the date of delivery. This warranty excludes damage by grit, sand and improper water chemistry causing corrosion of the part and is limited to the supply of replacement parts after the faulty part has been returned to the manufacturer for warranty inspection.

1-year warranty on THERMOCLAD cabinet & spa step:

The manufacturer warrants the THERMOCLAD spa cabinet and step against defects in materials and workmanship for a period of one year from the date of delivery. This warranty specifically covers the structural integrity of the cabinet, namely peeling, splitting, cracking, warping. The THERMOCLAD spa cabinet and step finish is warranted to be free from defects in materials and workmanship at the time of initial delivery. Fading and weathering of the surface will occur naturally over time and are not considered defects.

1-year spa hardcover warranty:

The manufacturer warrants the SPA hardcover against defects in materials and workmanship for a period of one year from the date of delivery. This warranty applies only to the structural integrity of the cover and the vinyl. Damage caused to stitching, straps or locks due to improper use of the cover will not be covered under warranty. Disposal of any cover replaced under warranty will be the owner's responsibility.

90-days warranty on all other fixtures and furnishings:

The manufacturer warrants all other parts not previously mentioned for 90 days from the date of delivery. This applies to items such as filter housing, topside display sticker. Items that can be replaced without the use of a tool such as filter cartridges, filter lid, spa pillows, cover locks etc. are not included in the warranty but are warranted to be free from defects in materials and workmanship at the time of delivery.

* Warranty limitations apply. To see the full, comprehensive warranty, contact your local dealer or visit
