CALDERA UTOPIA 'GENEVA'

COMFORT

The pinnacle of hot tub design, the Utopia Series features an architecturally inspired cabinet with easy-to-use touchscreen controls and a top quality hydrotherapy experience. It is unlike anything else. And it is waiting for you.

BEST SEAT IN THE HOUSE

You will notice the difference. Feel comfortably supported as the seat's design works with the

buoyancy of the water to ease pressure off body parts that are under stress all day.

YOUR MASSAGE, YOUR WAY

Each spa is carefully and purposely designed to deliver the right type of massage where it is needed the most, whether it's your lower back or the soles of your feet. Our Hot Tub Circuit Therapy™ system has a setting just for you.

Each Utopia model has up to eight Hot Tub Circuit Therapy™ stations, with specialised jets including Orbissage rotating jets, Euphoria jets and the Atlas Neck Massage system.

Utopia Series spas are the very best of Caldera and remarkable for their power and efficiency.

EXTRAORDINARY DESIGN

Features include an LED light bar that will complement any garden aesthetic.

You will also enjoy subtle style details including the adjustable SpaGlo™ lighting system that accents individual zones throughout the spa, such as the bar top, footwell, waterfall, and exterior front panel.
