OASIS™ SMALL

Owning an outdoor swim-spa/spa is one of the most rewarding investments you can make. Jumping into your spa is very refreshing and energising. What a way to start or finish your day...

We offer a solution where you can benefit of having an outdoor swimspa/spa and have the very same spa enclosed and protected from bad, cold weather. The answer is retractable enclosure. The gliding system allows you to slide the whole structure off the spa with ease and change an outdoor spa into indoor. This way you have the best of both worlds. There are many additional benefits of having an enclosed spa. The structure stops debris, grass, leaves, pine needles, insects etc. falling into the spa therefore less maintenance, less chemicals, no waste of heat energy stored in the water from the sun or heater, security and prevention of accidental falls. Having an enclosure means you may use your spa whenever you want. We offer very wide choice of styles, shapes and heights to choose from. Very popular is full height enclosure where you can stand up in and get changed. If you prefer an enclosure which will not obstruct the views we can offer you a low version. Enjoy your spa all year round by adding a telescopic enclosure. Whether you've yet to have purchase your spa or you've owned one for long time, an enclosure can easily be added.

- Bespoke design
- Wide range of shapes and styles
- Free standing or lean-to structures to suit everyone
- Protect your children and pets from falling into the spa
- No more leaves, dirt and insects in your spa
- Up to 15 years warrantee
