**2021 SPATA SPECIAL AWARD FOR RETAIL EXCELLENCE**

This was one award we were 'over the moon' to receive. The Retail Excellence Award is a 'one off' award made to companies displaying a retail centre for all clients day to day needs. These include all the necessary chemicals and pool cleaning equipment, to more specialised items such as electronic pool cleaning robots, hot tub spas and heat pumps. As well, as more simple fun items such as pool inflatables and such items as swim goggles and armbands!

***In 2021, we thought it time to enter even more awards into the different categories as we had completed some projects throughout that period that we were extremely proud of and thought worthy of consideration. What happened next exceeded all our expectations...***
